

ENHANCEMENT PRINCIPLES:

Improve the pedestrian's experience by: planting shade trees, creating continuous footpath routes, enhancing road and rail crossing points, providing additional seating and direction signage, and reducing empty windows and blank walls.

Improving the appearance of the main streets through: building renovations and re-painting projects, enhanced window displays in all shopfronts, the addition of colour and interest through street furniture and community art initiatives, and softening and screening of utilitarian lots with landscaping and planting.

Create a character of activity and liveliness by: placing banners onto the street when businesses open in the morning, creating seasonal 'hot-spots' to allow people to gather, developing a programme of street-side activities for the main street, and selecting a 'brand' for the town and using this to create a cohesive approach to enlivening the street.

LEGEND

HARDSCAPES

- New kerb
- New paved island
- New landscaped island
- New footpath
- New pedestrian crossing treatment
- Possible new pedestrian rail crossing

LANDSCAPE

- New tree
- New garden bed
- New planter box

STREET FURNITURE

- New bench
- New bin surround
- New pedestrian direction signage
- Exploring Wildflower Country signage

SPECIAL PROJECTS

- 1 Entry statement enhancement
- 2 Plants for People
- 3 Caravan park enhancement
- 4 Street Life
- 5 War Memorial enhancement
- 6 Silo project
- 7 Duffy's redevelopment
- 8 Talc Mine project

Enhanced Streetscape

Landscaped front to lot, footpath installed at cross-over, and linking path from cafe to garden. "Hot Spot!" space created to attract people. Illustrated are welcoming picnic deck chairs and colourful banners. Improved crossing point across Railway Rd with visitor information signage. Improved crossing points at side streets with grab rails, generous pram ramps and landscaped median refuges. Enhanced streetscape with painted building facades, planter boxes and displays in empty windows. Screened empty lots with climbers grown over fences.

Enhanced Streetscape

Screened front-of-lot parking with planter boxes and colourful banners to help promote business. Colour added to the streetscape with light pole bases painted in townscape colours and improved street. Screened empty lots with climbers grown over fences and colourful banners. Buildings painted in townscape colours and colourful illustrations in blank windows to help promote businesses. "Hot Spot!" enhanced space with benches, market space, public art and WiFi to create activity on the main street. Renovated historic buildings, fitted out as the Visitor Centre with interpretive displays.

Existing Streetscape

Mural opportunity site.
