TSPS

Banner Presentation

Last week when the banners first arrived, I had the pleasure of taking them to the school, so the first people to see them would be the students who created them. The kids were very excited to see their artworks.

Banners can be seen on the main street until late December and they will all be displayed on the Silo Projections from the 8th - 11th of December 2025. They turned out amazing and I think the town will shine that little bit brighter during this festive time.

Tayla Mutter
Tourism & Events Officer

A huge thank you to the students at Three Springs Primary School and our wonderful community members!

Together, you created a collection of bright, cheerful festive artworks that have been transformed into our brand-new Christmas banners.

Your creativity and enthusiasm have brought a special touch to our town, and we're so grateful for the time and effort put into every design. The banners will proudly line our main street throughout December, spreading festive spirit for all to enjoy.

Understanding your road trip rental rights and responsibilities

Hiring a car while on holiday can open the door to new places and make exploring our beautiful country easier. But some holiday-makers discover things don't always run smoothly, which is why understanding your rights and your responsibilities is so important.

Before you choose a car, it's worth taking the time to compare options such as pick up and drop off locations, who's allowed to drive, and whether a deposit is required.

Beware of headline prices that might not tell the whole story. It's misleading for a rental car company to use attractive prices to lure customers in when extra fees and conditions apply. If a car is advertised for \$45/day, that must be the total price including all mandatory fees. Any conditions such as a minimum hire duration must also be clear in the advertising.

When it comes to the hire contract, read it carefully. It explains the rental and insurance costs and any additional fees, as well as how you're allowed to use the vehicle. For example, you may not be allowed to take a 4-wheel-drive off road. Understand whether you need to return the vehicle with a full tank, as well as the cost per litre if you don't. Often the fuel costs charged by hire car companies can be a lot higher than you would pay at the pump.

Some vehicle hire contracts may ask you to agree to unlimited charges being made to your credit card. This could be considered an unfair contract term as it may not give you notice or an opportunity to dispute the charges so it's important to find out in what circumstances and amounts this might occur.

Hire car insurance can be a sore point for travellers.

Understand if there are limits on in-house insurance but also look into cheaper alternatives. Instead of taking the rental company's excess reduction product, you might be better off checking with your own insurer or travel insurance provider. If something goes wrong and the car is damaged or lost, you might be able pay the excess to the rental company and then make a claim for reimbursement from your insurer.

Despite wanting to get on the road as quickly as possible, make sure you take the time to check for damage both inside and out. Take photos of the car and ensure any damage is recorded in the vehicle damage report and counter-signed by the company representative. You cannot be asked to acknowledge a vehicle is undamaged unless you have been provided with this report and you've had the chance to inspect the car.

The damage on the report can only cover panel and other visible, external damage. You cannot be held responsible for the mechanical condition and roadworthiness of the car, this is up to the rental car company.

When your holiday ends and it's time to return the car, take photographs of the car and you're entitled to be present when the company completes its final inspection. Asking for a written confirmation that it was handed back undamaged provides peace of mind.

If any damage occurred during your hire period, ensure the company gives you a written outline of the expected costs and the process for repairs before you leave the premises.

Should you ever find yourself unable to resolve an issue with a car rental company, Consumer Protection is available to help on 1300 30 40 54 or consumerprotection.wa.gov.au

Thank you very much for

THANK YOU

Thank you so much for all the facilities you
provide for travellers. ~ Three Springs hospitality
at its best! We loved the clean facilities,
especially the hot showers! ~ the parking space,
access to water, quiet environment. We also
had very friendly service in town, particularly
the local (very well stocked) IGA.

We have enjoyed our stay in your
town and acknowledge the effort
in providing the facilities and
keeping your heritage and lovely
character of the town.

It is with gratitude
we thank the Three Springs community
for providing travellers with a clean &
well stocked shower & toilet room
and a safe & pleasant camping ground.
We loved checking out the history
of your town & visit to the telethon
May you all be blessed with
peace & happiness

Water supply in a bushfire

This information could save your life

While leaving high-risk bushfires is the safest option, if you plan to stay and defend your home, you must have an INDEPENDENT water supply and pumping capability. This typically requires water tanks of at least 20,000 litres, pump and generator.

This is required as mains water supply and pressure cannot be guaranteed during a bushfire due to the risk of power cuts, fire damage and extreme demand.

Use the Department of Fire and Emergency Services resources to develop your personal bushfire plan: mybushfireplan.wa.gov.au
You can also download the My Bushfire Plan app via the App Store or Google Play to access your bushfire plan anytime - even without an internet connection.

To support bushfire plans, if you have groundwater bore access to surface water, you can take and store emergency water without it counting against your annual entitlement. For more information on this, and for the location of emergency bushfire water supplies in dryland agricultural areas, visit the Department of Water and Environmental Regulation website.

Drinking water

We recommend you keep a supply of drinking water on hand throughout summer in case your water supply is interrupted.

Assistance for customers affected by bushfire

After a bushfire, we can assist you with issues such as damaged water meters and payment difficulties. If you have been affected by bushfire please call us on 13 13 85.

The Emergency WA website emergency.wa.gov.au provides emergency information and community safety warnings. Call 000 in a life-threatening emergency or the SES 132 500 for emergency assistance.

Public Notice

Mains water supply cannot be guaranteed during a bushfire

Water Corporation is prepared for bushfire season. However, we cannot guarantee that water pressure or water supply will be maintained in the event of a bushfire. Extreme demand, fire damage and power cuts can all result in a total loss of water.

If you plan to stay and defend your property during a bushfire, you must have your own independent water supply and pumping capability. You cannot rely on mains water. Details and resources about how to prepare for bushfire season can be found at mybushfireplan.wa.gov.au. For warnings and advice visit emergency.wa.gov.au.
