Stay safe and well this winter

Keeping warm and safe during the colder months of the year also means being alert to the hazards created by commonly used heating products within the home.

Consumer protection authorities are urging Australians to stay safe this winter by knowing the risks associated with items like hot water bottles, wheat/heat packs, electric blankets and heaters.

June is also Burns Awareness Month, an initiative of Kidsafe Australia that focuses on raising awareness of prevention and correct first aid treatment for burns and scalds across all age groups.

According to the Burns Registry of Australia and New Zealand (BRANZ), about 76 percent of burn injuries happened in the home and around 18 children a week were admitted to hospital burns units, mostly due to scalds from hot drinks like tea and coffee.

BRANZ also found that nearly a quarter of children and 42 per cent of adults did not receive the recommended 'gold standard' first aid treatment for burns, which Kidsafe advises should include applying cool running water to the injury for 20 minutes.

Hot water bottles are popular at this time of year, but they too come with a risk of burns. That's why it's important to only fill them with hot tap water, never boiling water, and avoid contact with the skin by using a fitted cover or wrap.

Wheat or heat packs are another way we might try to keep warm, but these can become a fire-hazard if not used correctly. Be sure to follow the heating instructions, and if you smell something burning, then allow it to cool and dispose of the pack.

Electric blankets should always be turned off before falling asleep and remember to place heaters on a flat surface, away from children, pets and combustible items. Winter is also an important time of year to ensure your smoke alarm still works – if it's more than 10 years old, it's due for replacing, while the batteries should be replaced every 12 months.

Find more winter safety tips at www.productsafety.gov.au/wellwinter or learn more about burns prevention at www.kidsafe.com.au.

Government of Western Australia
Department of Mines, Industry Regulation and Safety

Dear Shire of Three Springs residents,

Were you impacted by Cyclone Seroja and still need help?

I am writing to you as your residence, farm or business is within one of the 16 local government areas impacted by Cyclone Seroja. There are different types of help available for people affected by the cyclone. I encourage you to speak with a Community Recovery Officer about your situation to find out what type of help is available.

Local face-to-face and telephone help

Residents in the Shire of Three Springs can contact Community Recovery Officer Deborah on 0459 966 311 for a chat.

You can also meet a Community Recovery Officer face-to-face at one of the recovery hubs located in Geraldton, Kalbarri, Northampton, Morawa, Mingenew or pop-up hubs in Yuna, Nabawa, Perenjori and Mullewa.

If you are experiencing personal hardship or distress because of the cyclone, please phone the Department of Communities Disaster Response Hotline on 1800 032 965 for immediate support.

Help for uninsured house damage

There is help to clean-up damaged homes that were not insured. If you or someone you know is living with cyclone rubbish that makes the house unsafe call 1800 490 678 to find out about the help available.

Help for insured house damage

Financial help is available if your insurance claim does not cover all your repair costs. If you find yourself out of pocket due to the cost of repairing your property back to its pre-cyclone state please call 1800 490 678 for more information.

If you want to make your house stronger against future cyclones there is financial help to cover costs for installing specific upgrades in your home. To find out more go to dfes.wa.gov.au/recoveryandresiliencegrants or call 1800 490 678.

Help for small business owners

If your small business was impacted by the cyclone and you need help with the cost of clean-up and repairs there is financial assistance available. To find out more go to smallbusiness.wa.gov.au/seroja or call 133 140.

Help for primary producers

If you are a primary producer impacted by the cyclone there is financial assistance available. To find out what the assistance covers and how to apply go to agric.wa.gov.au/emergency-response/disaster-recovery-funding-arrangements.

Help for owners of heritage and cultural sites

There is financial help to recover the costs of repairing heritage buildings and cultural sites. The owners can be private organisations, individuals or local governments. If you have already completed repairs you may still claim eligible costs. To find out more call 6551 9993.

Help coping with your situation

Living through a natural disaster can affect how you think, feel and act. If you are not coping as well as you normally would, your local recovery staff from the Department of Fire and Emergency Services, Department of Communities and Red Cross are available for a confidential chat. They can help you get the support you need, as well as take the stress out of applying for financial assistance by helping you through the application process.

Where to find more information

You can find more detailed information about the types of help and the location of the recovery hubs on the Cyclone Seroja State Recovery webpage at emergency.wa.gov.au/recovery.

Recovering from a natural disaster can be a challenging, slow and frustrating process. I would like to reassure you that you are not alone. Recovery staff can explain what help is available. Please contact them and find out how they can help your recovery.

Yours sincerely
Melissa Pexton
Cyclone Seroja State Recovery Controller

All Round Operator

Three Springs Operations

We are currently seeking an All Round Operator for our Three Springs Talc Operation, willing to learn and develop in more than one area for purposes of multi-tasking.

Job Description:

As a Production Technician you will be required to operate various pieces of mining equipment in the pit and plant areas. Your commitment to safety and continual improvement, together with a positive "can do" attitude and flexibility, is essential.

Experience in operating earth moving equipment would be an advantage. You will work in a multi-skilled environment as part of a team with a commitment to safe work practices and a focus on continuous improvement.

Shift Cycle:

Monday to Thursday 6.00am to 6.00pm (3 daily scheduled breaks)

Main Working Area and Vehicles:

- Operating dump trucks and loaders
- Potentially excavator, dozer, grader and drill rig

Licence or Skill Requirements :

| Licence: | | Training: |
|----------------------|--|---|
| - WA Drivers Licence | | - Imerys Three Springs specific training. |

Various internal training and competency assessments, and/or external training resources will be undertaken by all personnel in this role.

To be considered for this role, you will need to possess the following skills and experience:

- A pre-employment medical will be required for the successful applicant.
- Excellent written and verbal English communications skills
- Strong communication, organizational and problem-solving skills
- Capable of building strong relationships across all levels of the business
- An ability to work well in an unsupervised, autonomous role within a broader team environment
- Flexibility and proactive attitude
- Willing to learn new skills

Join a small closely knit team environment, part of an internationally recognised company, and embrace values of safety, quality and sustainable development to ensure that we remain the world's preferred supplier of talc through operating excellence.

Please forward your application by close of business Friday, 22 July 2022 to:

Attention: Gary Turley - Operations Manager

Email: gary.turley@imerys.com

Post: PO Box 116, Three Springs WA 6519

Queries: Please contact Site Administration on 9954 3000

Maintenance Technician

Three Springs Operations

We are currently seeking a Maintenance Technician for our Three Springs Talc Operations, willing to learn and develop in more than one area for purposes of multi-tasking.

Job Description:

As a Maintenance Technician you will be required to service, maintain, repair and assemble machinery and equipment within the workshop, pit (i.e. haul trucks, front-end loaders, trucks, grader, drill rig and excavators) or processing plant, according to job specifications.

The Maintenance Technician may be required to work in the pit during machine shuts or in the event of a breakdown. In these cases the Maintenance Technician is required to fault find and make necessary repairs to either restore equipment to full function or enable transport to the workshop for further servicing. The Maintenance Technician will be required to climb onto or into machinery to access tasks, including small and awkward working areas including while carrying and manipulating tools or parts.

Experience in operating earth moving equipment would be an advantage as the role may be required to operate various pieces of mining equipment in the pit and plant areas. Your commitment to safety and continual improvement, together with a positive "can do" attitude and flexibility, is essential. You will work in a multi-skilled environment as part of a team with a commitment to safe work practices and a focus on continuous improvement.

Shift Cycle:

Monday to Thursday 6.00am to 6.00pm (3 daily scheduled breaks)

Main Working Area and Vehicles:

- Predominantly working in the Workshop and in the field as required.
- Operating dump trucks and loaders, potentially excavator, dozer, grader and drill rig operations

Licence or Skill Requirements :

| Licence: | | Training: |
|----------------------|--|---|
| - WA Drivers Licence | | - Imerys Three Springs specific training. |

Various internal training and competency assessments, and/or external training resources will be undertaken by all personnel in this role.

To be considered for this role, you will need to possess the following skills and experience:

- A pre-employment medical will be required for the successful applicant.
- Excellent written and verbal English communications skills
- Strong communication, organizational and problem-solving skills
- Capable of building strong relationships across all levels of the business
- An ability to work well in an unsupervised, autonomous role within a broader team environment
- Flexibility and proactive attitude and willing to learn new skills

Join a small closely knit team environment, part of an internationally recognised company, and embrace values of safety, quality and sustainable development to ensure that we remain the world's preferred supplier of talc through operating excellence.

Please forward your application by close of business Friday 22nd July 2022 to:

**PROPOSED DEVELOPMENT
WEST ERREGULLA PROCESSING PLANT AND PIPELINE
EPBC 2021/8907**

INFORMATION ONLY

The following notice is published pursuant to Section 95A(3) of the *Environment Protection and Biodiversity Conservation Act 1999* (EPBC Act).

AGI Operations Pty Limited (AGIO) proposes to construct and operate the West Erregulla Processing Plant and Pipeline, Western Australia. The project is located approximately 30 kilometres (km) south-east of Dongara, WA.

The project includes the processing of gas from upstream wells (outside of the project scope) and the transport of the gas to the Dampier to Bunbury Natural Gas Pipeline (DBNGP). The Proposed Action includes:

- A gas processing facility, with a nominal design flow capacity of 87 terajoules per day (TJ/d);
- A 16.5 km interconnecting buried gas pipeline between the facility and the DBNGP tie-in point;
- Supporting infrastructure proposed to include but not limited to accommodation, power generation, flare system, water treatment package, back-up diesel system and communications; and
- Vegetation clearing of up to 90 ha of land to support the above infrastructure.

The proposed action has been determined to be a 'controlled action' under the EPBC Act (EPBC 2021/8907). The controlling provision under the EPBC Act is 'listed threatened species and communities' (sections 18 and 18A).

The Commonwealth Department of Agriculture, Water and the Environment has advised that the proposed action is being assessed through preliminary documentation. The preliminary documentation for the proposed action is on display and will be publically available from the 27 June 2022 at the following locations and will be available for two weeks (until 11 July 2022) for comments:

- Shire of Irwin Library (Dongara) - 11-13 Waldeck St, Dongara
- State Library of Western Australia – 25 Francis St, Perth WA
- Shire of Three Springs Library – 132 Railway Road, Three Springs

Electronic copies of the documents can be obtained at the following website:

<https://www.agiq.com.au/articles/west-erregulla-project>

Interested persons and organisations are invited to view the preliminary documentation and provide comments to AGIO by 11 July 2022 via land.management@agiq.com.au or via post:

PO Box Z5267 St Georges Tce, PERTH, WA 6831.

Persons with special needs (i.e. for whom English is a second language or who has vision impairment) may contact Mark Brown at AGIO on 08 9223 4907 or mark.brown@agiq.com.au for assistance in accessing the material. Hard copies may be requested via the above for a \$20 postage fee.

Super Moons and Meteor Showers – July Has It All!

Stargazers have plenty to see this month, starting with a “Supermoon” on 13th July. The Moon’s orbit around Earth is slightly oval shaped or elliptical. So, every month there’s a time when the Moon is at its closest distance to Earth (at perigee) and another time when it is at its furthest distance from Earth (at apogee).

When perigee coincides with the full Moon, it’s popularly called a “Supermoon”. And when the Moon is at apogee? Well, it’s a “Micromoon”!

When to look: The Moon rises at 4.50pm on 13th July. It will be at perigee and approx. 357,122 kms from Earth.

Which direction to look: You will need a low, clear horizon as the Moon rises in the east:

Does a Supermoon look bigger to the naked eye? Find out at <https://astrotourismwa.com.au/supermoon/>

At months end we will be treated to the Southern Delta-Aquarids Meteor Shower. Meteor showers occur as planet Earth crosses the orbital path of a comet. As comets pass by the sun, the extreme temperatures heat up the nucleus causing debris particles to spread out creating a comet tail. As Earth passes through this debris cloud, we see the fiery spectacle of a meteor shower.

The peak of the shower coincides with a new moon, meaning conditions are ideal to spot these sizzling ‘shooting stars’.

When to look: Peak is on 29th July, but worth looking either side of this date too. Best after midnight in the early morning with meteors appearing to emanate from a point high in the north-eastern sky.

Enjoy a bumper month of cosmic views.

Find more stargazing tips and country events at www.astrotourismwa.com.au.

If you’re a budding “astro-enthusiast”, check out...

Three Springs Hockey

After a weeks break for country week the senior team came out firing today. With lots of positive talk and team play we started on a really positive note. The team should be really proud of the way they ran out the game to the end. We ended up finishing the game 4/0. Goal Scorers where Heidi with 2 Deb with 1 and Alyce with her first ever goal, congratulations Alyce. It was super hard to pick the POW this week as everyone played a great game. The votes where really close. Congratulations.

Fabi, you ran hard all game, tackled hard and passed the ball beautifully. Close behind Fabi was Deb and Heidi.

I normally don't give out coaches awards but this week I think it's appropriate. This young man played a great game. He ran hard, controlled the ball and tackled really well all game.

Congratulations Louis.

It was great to see and feel such a positive vibe on the field today. Congratulations team.

A big thank you to Janine for umpiring both games again this week. Thanks Also to our sponsors and supporters. Xx

Coach Tamara

SPORTS

NETBALL GAME 5 – THREE SPRINGS V COOROW

by: Deborah Bone – A Grade Coach

Game 6 - Three Springs vs. Carnamah/Perenjori

D Grade won 21 - 4

B grade went down 26 - 49

A grade won 31 - 15

Game 7 - Three Springs vs. Dongara 18.06.22

D Grade -

We've found some really good form the last few weeks so my expectations were quite high for today's game against Dongara.

We struggled to find the ball in the first quarter but we were evenly matched after that and ended up losing 17-8.

My coaches award went to Emily Wolfe for her analysis of the game. After sitting the first quarter off, Emily worked out what it was that she needed to do and set about doing just that for the rest of the game.

Aven also had a ripper of a game and found her shooting mojo again.

The sour sparkle went to Helen. Her defensive pressure all over the court was phenomenal and she really gave those Dongara girls what for! Her leadership really took a step up this week too.

Our focus this week will be on defensively not losing our player.

Coach Nadine

B Grade -

B grade had a draw last week. They did well to hold on. They had a few out this week and so some players were in some different positions and did really well. Shakayla Taylor got coaches award this week. Well done Shakayla.

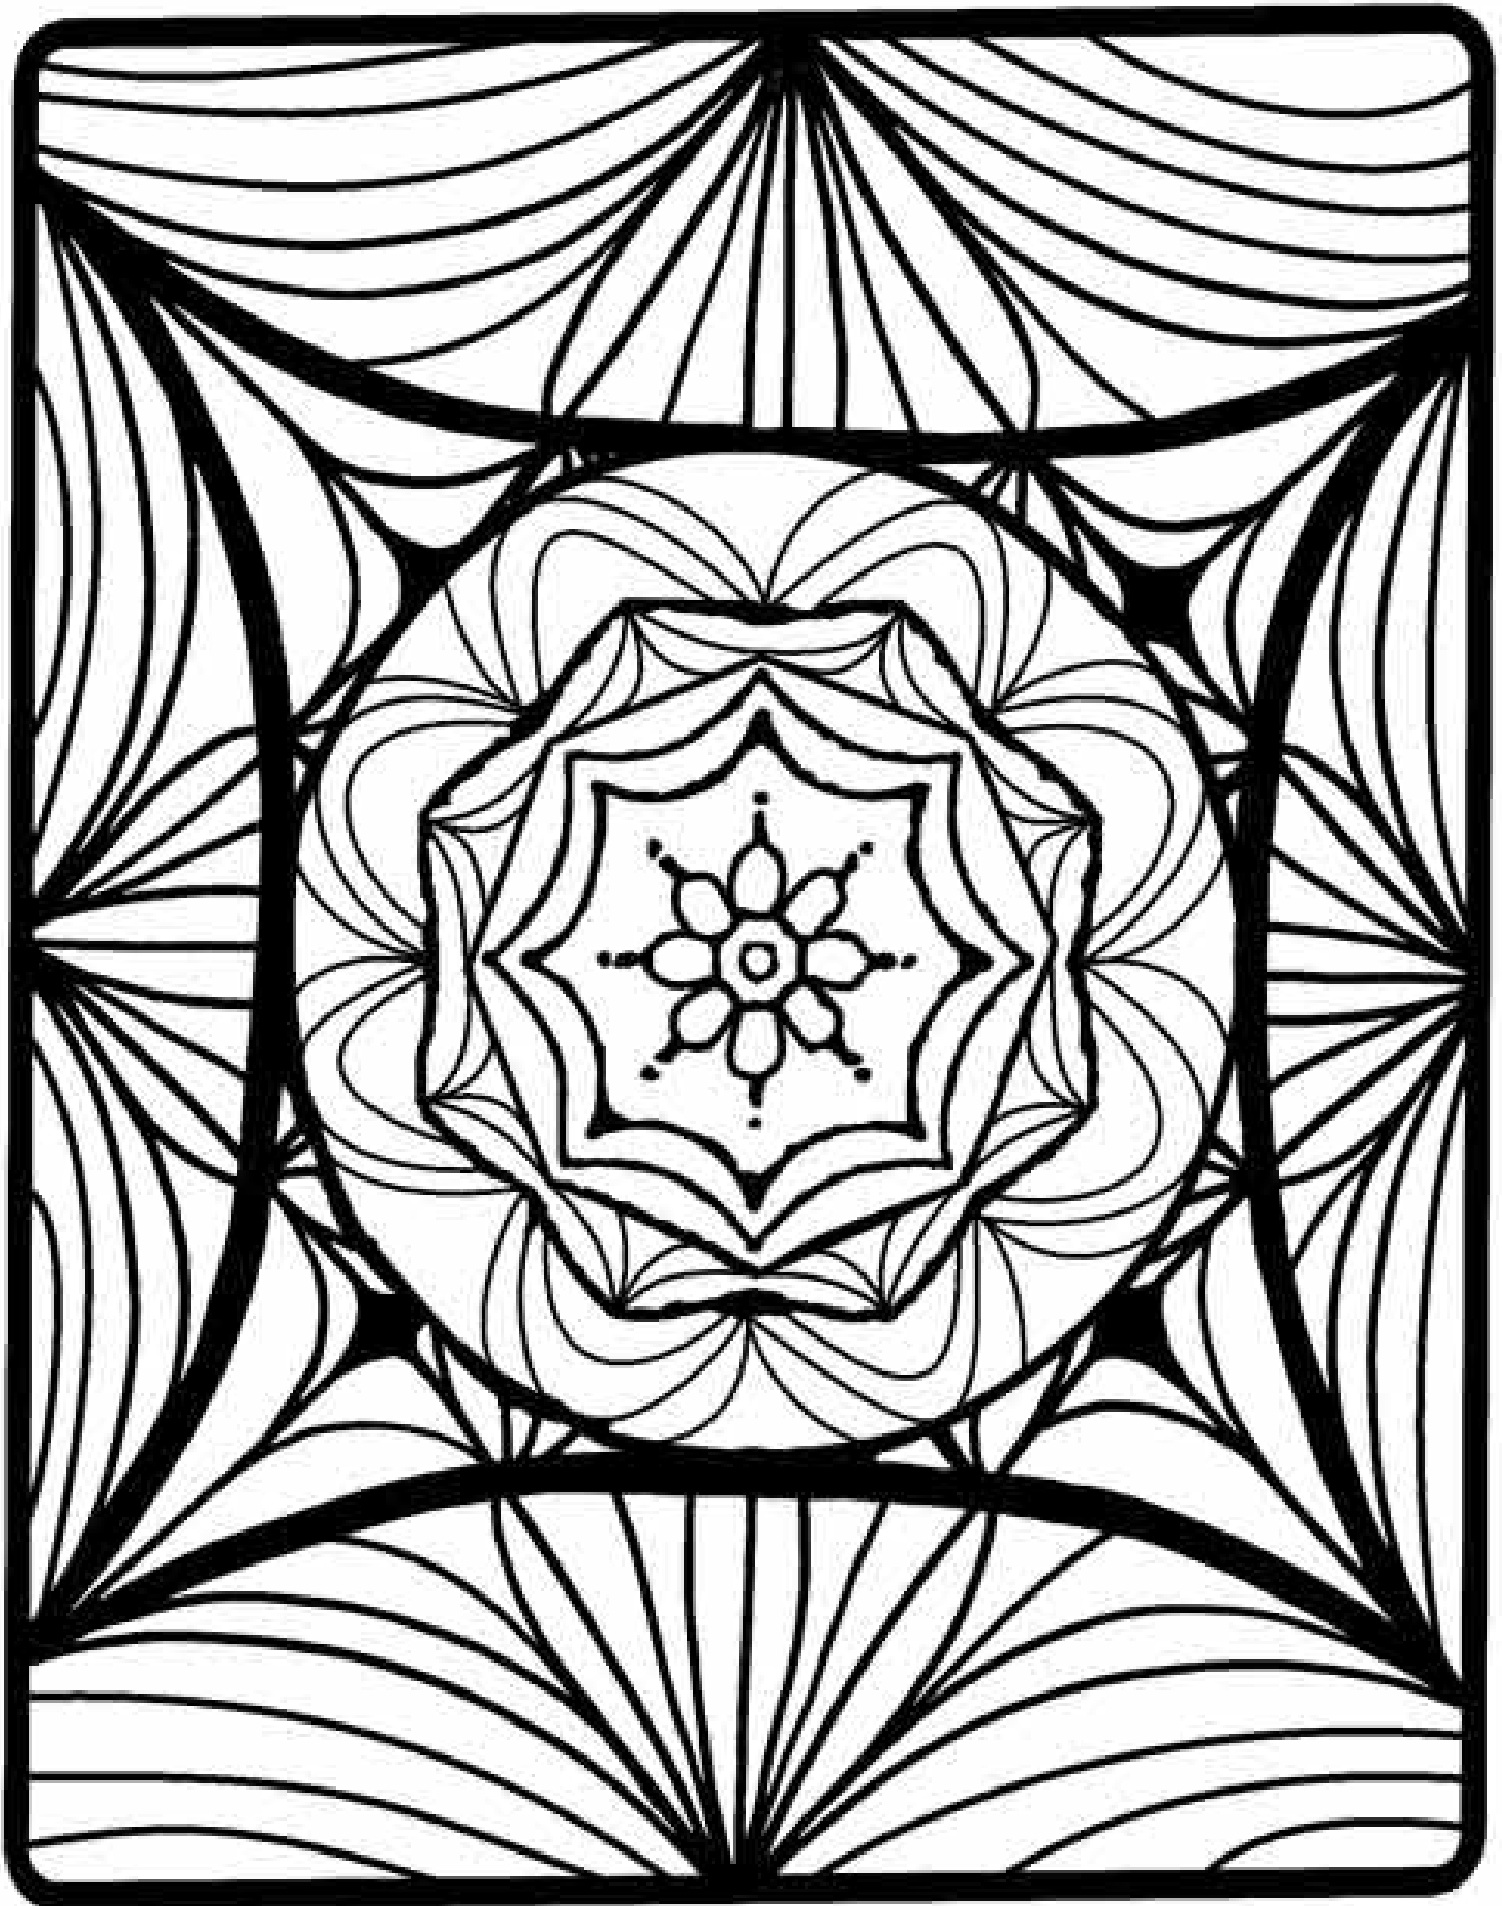

A Grade -

A grade had a win 35-19. We had a slow start but managed to find some extra energy after half time. The way the team boosts each other up and encourages everyone is awesome. We lifted when we needed to and rewarded the turnovers more regularly. Coaches award went to Bec Mills who ran hard all game and still found enough breath to encourage her teammates. Love your work Bec!!

**Until next week,
Deborah Bone - A Grade Coach**
